DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Fujimori et al (JP 2001-142214 and its machine-assisted English translation of the Japanese document as provided by JPO).

Fujimori teaches (see abstract and pg.11 of the Japanese document) the following resin used in a positive photoresist composition:

In Examples 13, 14, 16 and 17, Fujimori teaches a photoresist composition containing the resin (8) shown above, a photoacid generator and a nitrogen-containing compound (see Table 3 on pg.49 of Japanese document). Fujimori also teaches that his photoacid generator can be used in a mixture of two or more (see [0126] of English translation). In those Examples 13, 14, 16 and 17, Fujimori uses the following photoacid generators:

Since Fujimori already teaches that his photoacid generators can be used in a mixture of two or more, one skilled in the art would immediately envisage using those PAG-1 and PAG-2 together in Fujimori's Examples 13, 14, 16 and 17. Fujimori teaches present pattern forming method in [0164] and [0169] (see English translation). Thus, Fujimori teaches present inventions of claims 1-16.

Allowable Subject Matter

3. Claims 17-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Fujimori does not teach or suggest presently required magnetic film of claims 17 and 20.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sin J. Lee whose telephone number is 571-272-1333. The examiner can normally be reached on Monday-Friday from 9:00 am EST to 5:30 pm EST.
